BY D. W. CROWTHER.

ATLANTIC CABLE—EXCLUSIVE DISPATCH.

LONDON, Jan. 31.—The strike
begun Monday on the Clyde, and
is gripping most of Scotland and
Ireland, is spreading slowly through
the coal-mining districts, where at present
there are at least 100,000 men out.It is not a strike at all in the or-
dinary sense of the term. It is an
attempt to bring about what the en-
tire Socialist call the Social
revolution—in other words, it is
an opening gun of Bolshevism in
Great Britain.I have just completed a tour of
industrial districts of England
and Scotland. I was in Glasgow
on the strike preliminary, and
was a mass meeting the first morn-
ing of the strike. Later I talked
with members of the strike com-
mittee and strikers themselves. Here
is what Tom Bell, the real leader
of the Glasgow movement, said to me."We are asking for a forty-four-
hour week, saying we want it to
give jobs to the returning soldiers.
We say that because all movements
must have a practical basis. In or-
der to be supported by the ignorant
but we don't want a forty-four-hour
week or any other kind of a week.
It is a matter of principle. We want
the employers to give something which
the employers cannot give, say a
forty-four-hour week.""We are really out to destroy
the power in the hands of the
capitalists. We are nothing
for the government, unions or any
kind of organization or trade
union organization."Bell is a Scot. Every other lead-
er I met at the meeting was Scotch.
More than 400 men I saw, but on-
ly one took my attention.There was no cheering or spread-
ing of the word. The men were
quiet and seemed more ominous
than any amount of mob vigor.The meeting resolved that the
strikers would pay no rent or taxes
during the period of the strike
and further that the shop stewards
of every district should organize
into workers' committees to take
over the government of the dis-
trict. Various committees reported
that missionaries were at work
in other districts, and that the coal
miners in all of them had prac-
tically agreed to join the move-
ment.

NO DELUSIONS.

There was no excitement at all,
and apparently no delusions.
I have seen many strikes start, but
never one like this. I have never
seen such a capable, intelligent,
looking audience. Each
seemed to know what he was
doing, and each seemed to be
only one step away from a meth-

NIX EIGHT
HOUR DAY.Unions Set Limit
in Textile Work.Order Effective Next Monday
Regardless of Employers'
Objections."If Owners Don't Like it, It's
Their Move Next," Says
Employees' Chief.

[BY A. P. NIGHT WIRE.]

NEW YORK, Jan. 31.—Orders di-
recting 700,000 members of the
United Textile Workers of America
to establish an eight-hour day Mon-
day regardless of employers' ob-
jections were issued today by the
Union's Executive Committee, ac-
cording to announcement here to-
night.John Golden, general president of
the union, said the order had been
telegraphed to 330 local unions
throughout the country, adding:
"We are putting the eight-hour
work day into effect, and if the
manufacturers don't like it, it is
their next move."Many mill owners, it is said, have
announced their determination to
shut the mills if the workers insist
on altering working hours.Union officials said a forty-four-
hour week should be put into ef-
fect, with an eight-hour day and a
half-holiday Saturday. The union
is said to be willing, however, to
sign an agreement for a forty-eight-
hour week with work days of eight
and three-fourths hours and a
half holiday on Saturday. The pres-
ent working week is fifty-four hours.

STRIKE THREATENED.

[BY A. P. NIGHT WIRE.]

BOSTON, Jan. 31.—The move-
ment for a forty-eight-hour week
in the textile mills of New England
reached a critical stage tonight
when the general committee of the
United Textile Workers of America
voted to call a strike of the 20,000 mil-
l operatives there Monday next unless
the manufacturers previously agreed
to demands for a forty-eight-hour
week with fifty-four hours pay.John Golden, president of the
United Textile Workers of America,
who had sent a telegraphic appeal to
the Lawrence committee to postpone
the strike, will arrive in Lawrence to-
morrow. The outlook in other mil-
l cities in New England, where the
operatives have demanded the forty-
eight-hour week be put into effect
February 5, was uncertain tonight.

SEATTLE, Jan. 31.—More than
4000 longshoremen, who voted this
week by a close margin to go out
on strike in sympathy with the 25,
000 striking mill trades workers of
the shippers and commerce shops
were ordered to remain at their
work or have their charter canceled
and their action publicly denounced
by the International Longshoremen's
Union executive.This order was telegraphed to
Harold Graver, secretary of the Rig-
gers and Shipyard Union, which is
led by T. V. O'Connor, president of the
international organization. O'Connor
said the general strike of the Metal
Trades Council today issued a state-

[BY A. P. NIGHT WIRE.]

MARTINEZ, Jan. 31.—Indian
Marie, believed here to have been
the oldest woman in California, if not
in the world, died today at the sup-
posed age of 134. She had been the
object of scientific day research of
medical interest for many years. She
was born at a small mission settle-
ment near the southern end of Alameda
county.She recalled having been taken by
her Indian father to witness the found-
ing of the mission San Jose, in Alameda
county, which, according to the re-
cords of the old padres, occurred in
1797. She was 12 years old then. Marie
is said to have been the mother of
twenty-seven children, all of whom
are believed dead.For twenty-two years the aged woman
had been an inmate of the County Hos-
pital. Of late years she had grown a
third set of teeth.

[EXCLUSIVE DISPATCH.]

NEW YORK, Jan. 31.—W. R.
Hearst and John H. McCoy, the
Democratic leader of Kings county,
have broken off relations, and the
political woeceas at the City Hall
wondered today how long it would
be before Mayor Hylan followed
Hearst's lead and split with the
Mayor to the front two years ago
and forced his nomination upon
Tammany Hall.The first evidence of a Hylan-Mc-
Coy break is expected to be shown
in Mayor's attitude toward Ed-
ward Riegelmann, President of the
Borough of Brooklyn, who is one of
McCoy's right-hand men.The Evening Journal, Hearst's
afternoon newspaper, published a
bitter editorial attack on McCoy,
the Brooklyn leader, and demanded
to know how long the people of
Kings county would pay the salary
of McCoy as clerk of the Surro-
gates Court, a position which nets
him \$9000 annually.The controversy had as its cause
McCoy's refusal to accept the
Democratic nomination for Gov-
ernor.McCoy had been a political bedfellow
for several years, and last spring and
early summer, McCoy and Patrick H.
McCabe of Albany, President of the
Assembly, had been the chief
supporters of Hearst's designs upon
the Democratic nomination for Gov-
ernor.

BY FRAZIER HUNT.

[ATLANTIC CABLE—EXCLUSIVE DISPATCH.]

MALOSHUKA (village, North
Russia, Jan. 19.) (by courier to
Murmansk and by cable to Paris,
Jan. 31.)—Millions of Russian peas-
ants today are facing a future that
promises only to grow steadily
worse. They have little food, little
money, no supply of clothing, no
doctors, no seed for this season's
planting, and little sympathetic un-
derstanding.For two years many of the villages
have had no medicines, and a great
district, covering thousands of
square miles, has had only one doc-
tor. They have only freedom; they
cannot understand or know how to
use it. It is a tragic moment for
them to try to understand the new-
won democracy.In the old days we had plenty
to eat, smoke, and wear, and good
times, an old bearded patriarch
said to me today in this starving
and forgotten little settlement."We have liberty but no flour in
our bins, no cigarettes to smoke,
and only old clothes to wear. Why
do we have liberty? We want a re-
turn to the unforgetful days of
cruel autocracy?"—so now is this
thing of revolution and democ-
racy being tested out by the peas-
ants under an unfortunate circum-
stance.

WANT PHYSICAL COMFORTS.

Uneducated, blind, discouraged
and hungry, they want the physical
comforts they have not had since
the war and revolution. They want
actual food and clothing, not the
monthly rations of fifteen
cubits of bread and a few small
bits of meat, which are the only
things the Allied food committee,
which is only half enough for the
workings.The Evening Journal, Hearst's
afternoon newspaper, published a
bitter editorial attack on McCoy,
the Brooklyn leader, and demanded
to know how long the people of
Kings county would pay the salary
of McCoy as clerk of the Surro-
gates Court, a position which nets

HUNS' LILLE EDICT REBOUNDS.

[EXCLUSIVE WIRELESS DISPATCH.]

LILLE, Jan. 31.—The people of Lille are remembering
with tragic chuckles that a year ago today the German governor, Von
Gravenitz, published a true Prussian edict requiring the town to
clear its streets of snow, threatening a fine if it was not done to
his satisfaction.There is snow again in Lille today, but today it is the Ger-
mans who are sweeping the streets for the Lilleans. German sol-
diers who are prisoners of war are wielding the broom and scraper
under the eyes of French Polius with fixed bayonets.Unfortunately, Gravenitz is not here to see, but this is not
the use for German prisoners here. They have begun recon-
struction.The Germans blew up the bridges over the canal of Deule
and traffic has been passing over the temporary structures. Now
the German is most appropriately at work to make good the
damage, squaring old bricks for use and wielding sledge-hammers
on the twisted girders.A great many German prisoners are working in England, as
well as on the roads behind the front, but none of them has put
as much energy into their work as the ones in Lille.HUGE NAVY

[BY A. P. NIGHT WIRE.]

WASHINGTON, Jan. 31.—The
administration policy of vast naval
expansion unless world disarmament
becomes a certainty through
international agreement at Paris,
was approved today by the House
Naval Committee in recommending
unanimously a new three-year
building programme of ten great
battleships and ten scout cruisers.
Four Democrats and two Republi-
cans were understood to have op-
posed the programme originally, but
their approval was given after an
amendment was accepted providing
work on the new ships should not be
begun until after February 1, 1920.
Administration leaders said the vote
was an endorsement of the pro-
gramme announced by Secretary
Daniels for an American navy sec-
ond to none, unless limitations are
imposed on all nations by the Peace
Conference. Should agreement for
such limitation be reached, the bill
provides that the President may
suspend construction of the ships.
While the programme, as recom-
mended, does not authorize the six
battle cruisers and 120 other small
craft asked for by the department,
it was explained it had been de-
cided to postpone construction of
these vessels until naval experts
could reach agreement as to their
designs based on experience gained
in the war.

of an order issued at the War De-

ployees of the Military Intelligence
Bureau from giving information in
their custody to Senators, Representa-

without approval of the Secretary of
War.The order, dated January 30, and
signed by Lieut.-Col. A. G. Camp-

basis of the former alliance with Russia, and will take over payment in part at least.

When President Wilson returns to the United States in mid-February, Premier Lloyd George of Great Britain and Premier Orlando of Italy probably will go to their respective capitals, where the peace conference will require their presence.

The conference, however, will continue its labors during their absence. Most of the commissions appointed by the conference since last Saturday already are at work on the problems submitted to them.

There will be no plenary session of the Peace Conference tomorrow, according to an announcement made today.

The Peace Conference so far has had two replies to its invitation to the various Russian governments for a conference at the Princes Islands. In one of these the government of North Russia formally refused to meet with the Bolsheviks. The Omsk government, under Admiral Kolchak, while less categorical in its reply, expresses strong reserve.

Nothing official in connection with the invitation has been received from the Russian Soviet government.

The crisis in the peace negotiations over the disposition of Germany's colonies seems to have passed, momentarily at least. It is too early to say that President Wilson's view has prevailed in its entirety, but in American quarters there is confidence that a compromise plan which has been accepted in principle will be worked out with details acceptable to the American viewpoint.

WILSON TALKS PLAIN. When the supreme council of the Peace Conference met today it had before it the very plain statement made by President Wilson Wednesday's late session. So particular was Mr. Wilson to have an exact record of his declaration that he summoned one of his personal stenographers and kept him at his side during the session.

What he said did not appear in the official communiqué, but it may be stated that it was a very clear reaffirmation of the principles which the President has previously contended. In phrases stripped of diplomatic niceties, it was a plain statement of the American position. Mr. Wilson told the members of the supreme council he would not be party to a division of Germany's colonial possessions among the victors which would hold them, and then become a party to a League of Nations, which he said would be a "peace of no peace."

The net result of the past two days of discussion on the colonial question, in the opinion of the Americans here, has been to clear the atmosphere generally.

PROTECT SMALL STATES. The agreement reached by the Allied council of ten on the colonial question, says a Havas Agency statement today, provides that territories which give an expression of their wishes as to the form of their government will be permitted to set up such a government under the auspices of the League of Nations, obtaining either national independence or living under a protectorate of one or other of the great powers. Arabia and Mesopotamia are considered to be examples of this class.

In the case of peoples insufficiently developed for self-government, the league shall choose the power most suitable to govern, under certain guarantees, to be fixed either by the Peace Conference or the league. Provisionally, the council of the Peace Conference will be left as they are now, in control of the powers now exercised by the great powers.

As regards Asiatic Turkey, the statement adds, the four great powers are to undertake its administration at once and the council of ten has asked the Versailles war council to submit a report as to the best troops available for occupation of this area.

GERMAN COLONIES. In the discussions concerning the disposal of the former German colonies, President Wilson contended in no uncertain terms that to divide the colonies among the Entente nations would be in direct contradiction of the "fourteen points" which were accepted as a basis of peace. Such a division, he said, would have added, also would violate the principles of the League of Nations, as laid down at the Peace Conference, last Saturday.

The American attitude, it is declared, is very positive. What the United States would do in case the powers insisted upon dividing the colonies among them has not been disclosed. The American attitude, it is held in some quarters, might be in question.

A Paris dispatch Thursday night, received by the British Wireless Service, made it appear, probably through a transmission error, that possession of Fosen, not Teschen, was in question.

ELOQUENT FIGURES.

The records of the advertising achievements of Los Angeles newspapers are regularly printed in The Times in order that men and women who depend upon newspaper advertising for the success of their business ventures may know the extent to which successful business builders patronize local newspapers.

The Times printed a total of 11,422 inches of paid advertising last Sunday, which was 6440 inches more than was printed in the second newspaper and 3936 inches more than was printed in the third newspaper.

In local display advertising last Sunday The Times led the second newspaper by 3211 inches and the third newspaper by 5059 inches.

In classified advertising on the date mentioned The Times' lead over the second newspaper was 2016 inches and over the third newspaper 2102 inches.

The following is the record:

TOTAL ADVERTISING	INCHES.	CLASSIFIED ADVERTISING	INCHES.
THE TIMES	11,422	THE TIMES	5,834
Second newspaper	5,322	Second newspaper	2,923
Third newspaper	2,466	Third newspaper	446

be such that it probably would affect the whole future of the Peace Conference. President Wilson, it is understood, still holds to his original opinion that would be scarcely worth while for the United States to participate in the negotiations unless a League of Nations, with the accompanying principles, were provided for in making peace. At yesterday's session of the supreme council, President Wilson presented the American viewpoint unreservedly. The general public probably will not see a full report of yesterday's session, which probably will have historic significance, until after the treaty of peace is signed, if at all.

TURKEY. The military representatives of the supreme war council are taking steps to secure an early meeting to arrange for the distribution of Entente and American forces. If the latter should be necessary, without delay.

Fresh reports of misadministration of the Armistice and other subject matters by local Turkish corrective measures, understood to have been the reason for the action of the council yesterday in taking measures to proceed immediately to the order in the Turkish area.

The council expect to be able to hold a meeting within a day or two. Meanwhile their staffs have been ordered to proceed immediately to the matter for the consideration of the council's military chiefs.

NO YANKEE GUARD. What the military representatives of Turkey for garrisoning purposes, there will be no American troops among them, it developed today. It is understood that the American purpose would be inappropriate, as the United States has never been at war with Turkey.

The Military Committee of the Supreme Council expects within two days to report a plan for the allotment of the various nations of the troops to be retained on the western front. It appears that by April 1 there will be sufficient American divisions remaining on the lines, with five divisions ready for embarkation toward the east. A month later it is expected this aggregate will be reduced by five divisions, of which ten will be on the lines and five ready to return.

The length of stay in France of these ten divisions depends upon the time of the signing of the general peace treaty. It is said that as soon as that occurs all the American troops probably will be withdrawn.

BRAZIL'S CLAIMS. Brazil has two matters of particular interest in the settlement of war claims—payment by Germany for coffee which Brazil was forced to sell her shortly after the war began, and a decision as to German interests in Brazilian possessions.

In an interview in The Temple yesterday, declared Brazil would "follow the lead of the great powers upon matters of general interest."

The only government that was continuing to make formal objections yesterday afternoon to the compromise plan of administering the German colonies was the Australian government, says the Paris edition of the Daily Mail today. Her delegates were declared to regard the ownership of New Guinea as vital to the existence of Australia.

Premier Clemenceau, however, the newspaper adds, promised Australia his full support in safeguarding her position.

There is no possibility now, the Daily Mail declares, of Australia continuing her independent opposition to the plan.

One result of the attitude taken by Italy in yesterday's discussion, the Daily Mail states, was the decision that the mandatory system of administration should only be applied to non-European territories.

Such a solution, it is argued, would hurdle the difficulties surely to be encountered in apportioning the colonies among the powers, but at the same time give each of the big powers what they are demanding with a spirit which, however, is better than nothing.

The only clash between the big five powers is Japan and Great Britain, regarding the Pacific islands. As England agreed in 1914 to give Japan all the German possessions in the Pacific north of the equator, taking herself the islands south of the line.

When Australia and New Zealand learned of the pact they refused to ratify it, and England's Foreign Office is willing enough to let the League of Nations figure out and decide the squabble, instead of leaving that between Great Britain and Japan alone.

Italy wants control of the Adriatic, fearing a Jugo-Slav fleet might cross the sea and bombard Ancona, for example, before the Italian warships at Venice or at Brindisi could arrive to prevent it.

PARIS STILL FEARS HUNS. The above illustrates the attitude of all the powers except the United States, which seeks to grab nothing from this war, fears nothing for the future, and therefore is seeking to play a truly altruistic part. The same fears which have disturbed the Hun hordes might sweep Parisward again some day, still linger there, despite the fact that Germany was defeated.

Apprehension of the Austrians also actuates the Italians to demand strategically important frontiers. The League of Nations will be formed and permitted to dispose of certain of these questions, at least, temporarily, because all the nations realize that everybody else trusts the United States and accepts America's decisions because it is palpable that America is not seeking recompense in any shape or form. But all hope that the operation of the administration of the League of Nations will enable them to gratify their ambitions and realize aims after peace is signed.

"Although the Central Powers were defeated and had to sue for an armistice, it looks to me as though the League of Nations will develop into nothing more or less than another series of big power quarrels against the old alliance of the Central Powers, whose numerical strength may be increased by the acquisition of new allies to the east," said a close student of the diplomatic situation.

"You mean Russia and Japan, maybe, will themselves ally with Germany?" I asked. "Who knows," he replied, "France and Britain were not friends; neither were America and England, nor Russia and Japan, for that matter."

JOKER SEEN IN NATION LEAGUE.

Powers Jockeying to Get Strategic Land Control.

Planning for Offense and Defense Later On.

America Only One Taking Scheme Seriously, Report.

BY HENRY HALE.

ATLANTIC CABLE—EXCLUSIVE DISPATCH. PARIS, Jan. 31.—The United States is the only big power taking the League of Nations seriously.

That fact is proved by the attitude of the other powers regarding the rectification of frontiers, as everywhere the strategic military and naval importance and value of the land under discussion is underlined as of initial importance.

The principal object of a League of Nations is to obviate future wars. The United States believes a league will accomplish this purpose. But it is evident the other powers are not so optimistic regarding the functioning of a league, as everywhere, it is trying to safeguard himself against future aggression on the part of neighbors and providing himself with jumping off for offensive action on his own part.

The question of disposing of the German colonies reveals lack of confidence in the ability of a League of Nations to maintain peace perpetually because:

First, the British colonies insist on possessing themselves of the former German islands in the Pacific—the Marshall and Ladrones groups, as well as Samoa.

Second, France, headed by Marshal Poch, wants the left bank of the Rhine.

Third, Italy wants the Adriatic coast.

Fourth, Japan insists on holding Kiao-Chow in view of the possible future operations in China.

WIFE IN NAME ONLY. In certain quarters here it is believed the League of Nations will become a sort of wife in name only, a proposition whereby certain powers are enabled to divorce themselves from the League of Nations and administer them internationally under the mandatory system—Australia, New Zealand, for example, are not content with this solution regarding the Pacific islands.

On the other hand not all the powers accept the League of Nations. The United States, for example, is not content with this solution regarding the Pacific islands.

It is felt, therefore, that if all former German colonies are placed under control of a League of Nations the administration of these colonies can so be maneuvered that Australian interests will administer the Caroline Islands while the Japanese will handle Tientsin and perhaps the Italians can be placed nominally in charge of Fiume as a free port on the Adriatic.

STRING ATTACHED. Such a solution, it is argued, would hurdle the difficulties surely to be encountered in apportioning the colonies among the powers, but at the same time give each of the big powers what they are demanding with a spirit which, however, is better than nothing.

The only clash between the big five powers is Japan and Great Britain, regarding the Pacific islands. As England agreed in 1914 to give Japan all the German possessions in the Pacific north of the equator, taking herself the islands south of the line.

ITALY TO WITHDRAW HER CLAIM TO FIUME.

WILL ACCEPT FREE PORT SAME AS HAMBURG PRIOR TO 1870, IS REPORT.

(BY ATLANTIC CABLE AND A. F.) LONDON, Jan. 31.—It will be found, says the Paris correspondent of the Evening Standard, that Italy is willing to withdraw her claim to the port of Fiume as part of Italian nationality. Italy will agree, the dispatch adds, to Fiume being made a free port, as the port of Hamburg was a free city before 1870.

COMMITTEE FOR INCREASED NAVY

(Continued from First Page.)

hoped to get the measure before the House next week.

Besides providing for the new building programme, the bill authorizes a temporary naval force of 225,000 men, exclusive of officers, and carries an amendment by Representative Oliver of Alabama directing that men who enlisted in the navy during the war for the regular term of four years shall be regarded as having enlisted for the period of the war. If they apply for such change of status before next July 1.

After the committee's decision, it was learned that the navy general board, headed by Rear-Admiral Fletcher, is studying the question of military characteristics of new ships closely, but has not reached definite conclusions.

DEVELOPMENT THEORETICAL. The one point on which there appears to be substantial agreement is that no very radical departures in battleship or battle cruiser design have grown out of the great struggle. The engagements of heavy craft were too few to afford any clear-cut lessons.

STEVENS TO CONTROL SIBERIAN RAILROADS.

OWNERSHIP REMAINS IN RUSSIAN NATION, WITH ALLIES POLICING.

(BY ATLANTIC CABLE AND A. F.) PARIS, Jan. 30.—With respect to the agreement reached between the United States and the great powers for joint inter-allied supervision of the Siberian railways, the administration and management of which will be left in the hands of John F. The United States, Japan, and other powers, will confine themselves to extending support to the commission and assisting in the policing and defending of the line.

(BY A. P. NIGHT WIRE.)

NEW YORK, Jan. 31.—Four of America's "aces," one of them Capt. Edward V. Rickenbacker, who is officially credited with bringing down twenty-six enemy airplanes, arrived here late today on the British steamship Adriatic.

The others were Maj. James A. Meissner of Brooklyn, officially credited with eight machines; Lieut. Paul F. Baer of Mobile, eight; and Capt. Douglas Campbell of Mount Hamilton, Cal., six. All were decorations awarded by the American and Allied governments.

Capt. Rickenbacker, prior to going to France, was a well-known driver of racing automobiles. His first experience abroad was as chauffeur to Gen. Pershing, but he soon transferred to the air service, because he found motorizing in the war zone "too slow." His rise into the "ace" class was rapid, and soon he had America's airmen in the number of best downed.

There is still another phase to the present movement. The strikers are not getting any strikers' allowances. They are a group of them what they are going to do when their money runs out. They answered simply: "They will have to requisition what we need."

LOCKOUTS THREATENED.
(BY ATLANTIC CABLE AND A. P.)
LONDON, Jan. 31.—Berkut for serious developments in Glasgow, the labor situation was not materially changed today. It was reported that some Belfast firms had threatened to institute a lockout, but as yet this has not been confirmed officially. The Belfast concern, affected by the strike, however, issued a joint statement contending that any change of hours must be a national affair, and asserting that they are willing to accept whatever standard may be decided upon nationally. They declare that if a working week of forty-four hours is adopted only in Belfast that city will be handicapped.

POLICE CHARGE STRIKERS.
(BY ATLANTIC CABLE AND A. P.)
GLASGOW, Jan. 31.—Serious conflicts between the police and strikers developed today in which at least forty persons were injured. Among them, Sheriff MacKenzie, Chief Constable Stevenson, Deputy Constable Rennie and a number of policemen. The strikers were charged with inciting to riot. Both sides were arrested and later charged with inciting to riot.

During the height of the disorders the Riot Act was read, and it was contemplated to invoke military aid, but the order was cancelled when Gallagher and Kirkwood were permitted by the authorities to address the strikers and exhort them to march off in orderly procession, as nothing more could be done today.

OPPOSE GENERAL STRIKE.
(BY A. P. NIGHT WIRE.)
TACOMA (Wash.) Jan. 31.—It was the turn today of the opposition to a general strike next Tuesday in Tacoma to make itself manifest.

A statement issued by the carpenters' local, which was reported at Thursday night's session of the Metal Trades Council to have taken favorable action on the general strike, not only denied the report, but charged the Strike Committee with falsifying in other reports concerning the carpenters.

The denial of the carpenters' action left the general strike with only one union's support, as far as can be learned tonight. Other unions postponed action, it was reported.

STRIKE AVERTED.
(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Jan. 31.—The California Metal Trades Association and the California Foundrymen's Association announced tonight they had voted to accept a compromise submitted by the conference committee of the employers and the Metal Trades Council, affecting approximately 10,000 workers employed in shops outside of shipyards.

The compromise provides that the Macy scale shall be applied from January 15. A lump sum based on an increase of 10 per cent. from October 24 is to be paid as a bonus in lieu of retroactive pay. The crafts employed in outside shops did not participate in the scale of wages fixed by the War Labor Board, and known as the Macy award, which became effective on Jan. 24, 1918.

The Strike Committee gave out a statement asserting preparations for the general strike, both in Tacoma and Seattle, rapidly are being brought to a completion and that practical complete industrial stagnation will be the result. The statement sets forth the justification, from the union standpoint, of the extreme measure being taken and of its significance in the struggle. Eating houses and means of provisioning strikers and their families are being planned, it is said, and it is pointed out that the public has opportunity for like measures.

and distributed by the local communities. Having paid in advance for these supplies, many of the towns voted to give to the families the seven months' allowance at once, and now thousands of the ignorant peasants find they have eaten their entire ration, and have nothing left except a little frozen fish for the coming month.

Many families had to sell their only cow, calf or horse, to buy food at terrible prices, and even those who have conserved their supplies find it impossible to do the heavy, gold work in the forests on the slight rations which, spring after crop failure last year, is the only flour they have. At best, it is a heart-breaking condition.

BEG FOOD FOR SICK.
For days I have passed these desperate little communities of half-fed adults, undernourished children and uncared-for sick. There has always been certain to be a few destitute families of sick, whose only hope has been the big, which the hungry children were able to beg from the other poor homes.

Trailing for miles of frozen forests separating Archangel from Kola to Petrograd, I arrived tonight in this tiny log hut village of Malokhuyka, nestled on the river bank a few miles from the White Sea.

Hidden here in the forests and sleeping under the snow, it is typical of the thousands of Russian villages. If one can understand it, its people and their troubles, he will be able to understand 85 per cent. of the Russian miseries.

The hope for the future for this great country lies in ignorant, simple, kindly people. They are the latent force that will eventually develop into the strong backbone for the wonderful republic of Russia to be.

Although for the moment the Bolsheviks in Petrograd and Moscow dominate Central Russia, its peasants are the ones who will be able to dictate the affairs by the sheer force of numbers. They are the ones who have thrown in their blood and will force the new Russia.

Education will furnish the blood. Country life in Russia must be understood. It is communal. There is no farm life, as in America. Here in the never-ending forests of the North the men have carved out families in the center. Mostly, they are along the river courses, where the land is almost worthless and the crops are poor.

One may ride ten or twenty miles without passing a single habitation. Then comes a little group of houses strung along the frozen stream. This village where I am writing has seventy log houses built along both banks of a narrow stream emptying a few miles down into the White Sea.

HOUSE AND EARN.
This particular one-story dwelling is constructed of heavy logs, marvelously jointed. Roughly estimated its dimensions are twenty feet wide and forty feet long. Adjoining to rear is the stable, where the simple home is located. The general utility kitchen occupies the front half of the house, a quarter of the space being filled with a brick oven.

This hearth is the heart of the family life. At this early hour of the morning I am waiting for a change of horses after an all-night drive, the young mother is working with earthen pots before a blazing fire. A 6-year-old girl is helping her.

The old grandmother comes in, carrying a bucket of water, with a lighted pine taper stuck in her mouth. From a coiled spring, suspended from the low ceiling, hangs a cradle, and as I write the baby cries of a strong-lunged infant are heard. The grandmother takes a flask of spinning and places it near the cradle, ties a string to her foot, and while her nimble fingers make thread from the raw flax, she rocks the cradle with her foot.

The old grandfather comes in, smiling, when I give him the first sign that he has been seen. Neighbors are dropping in to see the foreigner, and, as they enter, they uncover their heads and face the ikon, the religious picture hung in the corner, and cross themselves.

Three hundred and ninety persons live in this village, giving an average of two adults and three children to each home.

Due to under-nourishment, poor care, and lack of medical attention, the mortality of the children under 1 year is 50 per cent., and 70 per cent. under 5 years.

It is a real case of the survival of the fittest, but the ones who live become strong, big-boned men and women. Forty per cent. of the population is illiterate. In the one single-room school the thirty pupils are learning little more than to read and write on account of the innumerable holidays in the few months of school.

There is still another phase to the present movement. The strikers are not getting any strikers' allowances. They are a group of them what they are going to do when their money runs out. They answered simply: "They will have to requisition what we need."

It is difficult to believe Bolshevism will break out in any city as fast as the Scots, but there is nothing else behind the strike, which may prove to be a movement beside which the Russian will seem insignificant.

LOCKOUTS THREATENED.

LONDON, Jan. 31.—Berkut for serious developments in Glasgow, the labor situation was not materially changed today. It was reported that some Belfast firms had threatened to institute a lockout, but as yet this has not been confirmed officially. The Belfast concern, affected by the strike, however, issued a joint statement contending that any change of hours must be a national affair, and asserting that they are willing to accept whatever standard may be decided upon nationally. They declare that if a working week of forty-four hours is adopted only in Belfast that city will be handicapped.

An instance of the novel phases of the strike movement, 2000 strikers at Edinburgh today demanded that the Edinburgh Corporation grant £200 for a strike fund and the Leigh Corporation £500 and threatened unconstitutional acts if their demands are refused.

There is a prospect of a strike in the electrical trades in South Wales tomorrow.

Representatives of the Miners' Federation were in conference today with the Labor Ministry and the Board of Trade concerning the miners' demands for a 30 per cent. increase in wages, a six-hour day and nationalization of the mines. OPPOSE GENERAL STRIKE.
(BY A. P. NIGHT WIRE.)
TACOMA (Wash.) Jan. 31.—It was the turn today of the opposition to a general strike next Tuesday in Tacoma to make itself manifest.

A statement issued by the carpenters' local, which was reported at Thursday night's session of the Metal Trades Council to have taken favorable action on the general strike, not only denied the report, but charged the Strike Committee with falsifying in other reports concerning the carpenters.

The denial of the carpenters' action left the general strike with only one union's support, as far as can be learned tonight. Other unions postponed action, it was reported.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Jan. 31.—The California Metal Trades Association and the California Foundrymen's Association announced tonight they had voted to accept a compromise submitted by the conference committee of the employers and the Metal Trades Council, affecting approximately 10,000 workers employed in shops outside of shipyards.

The compromise provides that the Macy scale shall be applied from January 15. A lump sum based on an increase of 10 per cent. from October 24 is to be paid as a bonus in lieu of retroactive pay. The crafts employed in outside shops did not participate in the scale of wages fixed by the War Labor Board, and known as the Macy award, which became effective on Jan. 24, 1918.

The Strike Committee gave out a statement asserting preparations for the general strike, both in Tacoma and Seattle, rapidly are being brought to a completion and that practical complete industrial stagnation will be the result. The statement sets forth the justification, from the union standpoint, of the extreme measure being taken and of its significance in the struggle. Eating houses and means of provisioning strikers and their families are being planned, it is said, and it is pointed out that the public has opportunity for like measures.

LEAGUE MEETS TODAY IN NORTH.

EIGHT TEAMS WILL DOUBTFUL COMPOSE THE ORGANIZATION.

(BY A. P. MONT WIRE.)
SAN FRANCISCO, Jan. 31.—(AP)—The Pacific Coast Baseball League will meet here tomorrow to settle a number of important matters in connection with the playing season of 1919. There appears to be little doubt that the league will be composed of eight teams, Seattle and Portland being the newcomers to the circuit. A playing schedule also will be adopted. The question of whether a single or double umpire system will be used is another matter to be discussed.

The northern clubs stated for membership in the league will be represented at the meeting by Judge W. R. McGroarty of Portland and D. E. Hendricks of Seattle. McGroarty is an old-time member of the Pacific Coast League, but this will be his first appearance at the council of this organization. Hendricks has been interested in professional baseball in the Northwest for a number of years.

Willie Hagan is expected to urge the claims of Tacoma for admission into the league, with an idea of displacing Salt Lake City, but close followers of the sport expect that his efforts will come to naught as there is no disposition to oust the Utahans.

No surprise is looked for and it is expected that with the conclusion of the business sessions, the various team managers immediately will begin active arrangements for the preliminary spring training of their respective clubs.

BARTFIELD AND ORTEGA IN DRAW.

(BY A. P. MONT WIRE.)
MILWAUKEE (Wis.) Jan. 31.—(AP)—Heldier Bartfield, Brooklyn waterweight, and Battling Ortega of San Francisco tonight fought a ten-round draw. Some sporting writers thought Bartfield entitled to a slight edge. Ortega had the advantage in the early rounds, upsetting the earlier in the third session with a swing to the jaw. Bartfield easily scored matters in the last four rounds. The fifth and sixth were even.

GIBBONS FOUGHT CHIP TO DRAW.

(BY A. P. MONT WIRE.)
DULUTH (Minn.) Jan. 31.—(AP)—Gibbons won his fight with George Chip before the Duluth Athletic Club here tonight by a wide margin. Gibbons held his slower opponent at a distance and outboxed him in every round. The fight was slow and uninteresting, neither man cutting loose with all the stuff he had.

FINDS "JOKER" IN ORDINANCE.

Beach Commission Decides to Postpone Action.

Plan Celebration for Discharged Soldiers.

LONG BEACH, Jan. 31.—(Local)

theater men today discovered a "joker" in a new building ordinance drawn up by G. W. Scott, city building inspector, which, it is said, would legislate most of the Pike amusement houses out of business.

According to City Attorney Hoodenpyl, the proposed ordinance, as it now stands, would prohibit moving-picture performances in all rooms protected by masonry walls.

When informed of this fact, Commissioner F. S. James, of the public works department, who introduced the ordinance, withdrew it for further consideration.

The City Attorney's interpretation is that the proposed ordinance would be construed by the courts as a regulation of moving-picture performances, regardless as to whether they took place in buildings now in existence or buildings erected in the future.

MOTOR VEHICLE RESOLUTION.
Assemblyman Frank F. Merriam and Senator Joseph A. Rominger, local legislators, were today requested in a resolution passed by the City Commissioners to support an amendment to the Motor Vehicle Act as advocated by Mayor Woodman of Los Angeles.

The proposed change would divert a certain percentage of motor fees now divided between the State and county to municipalities. The Municipal Commission expressed itself unanimously in favor of the proposed amendment.

PLAN WELCOME CELEBRATION.
Under the auspices of the city, a meeting will be held Monday evening at next week at the City Hall to draw up plans for a municipal celebration in the nature of a welcome to the returning Long Beach men in the service, and to decide on a program for assisting the men while they are adjusting themselves to civil life again. The object of the conference Monday is to form a council, composed of representatives of the various interested organizations of the city, to determine upon a co-operative program.

FOOD ECONOMY IN ORANGE COUNTY.

Despite War-Time Prices Depletion Home Breaks Back of Old H.C.I.

SANTA ANA, Jan. 31.—(Local)

What is believed a record for food economy during the period of high prices is disclosed in the annual report of the Orange County Detention Home.

The report shows that ninety-seven boys and girls were in the institution during the year, averaging a stay of fifty-one days, that 14,198 meals were served at the institution at an average of 51.2 cents per meal. The report was given by Mrs. Hutchins, the superintendent.

Edison Company that serves the northern part of the city was struck by lightning at 3 o'clock this morning at the peak of the spectacular electrical thunder and rainstorm, for a time causing hundreds of people to flee in panic. The brilliant ball of flame threw a bright red glare that could be seen for miles, on buildings in the neighborhood, giving rise to the belief that a big fire was raging. Excited residents turned on a fire alarm, but the big electric switch, burning in the form of an arc, proved to be the only blaze. It was handled without difficulty. The lightning also struck the transformer house of the South-east California Edison Company at Fourteenth and Locust avenues, interrupting the city's electrical service for a period of two hours. The damage to the local electrical equipment will amount to about \$500.

CONTRACT TO REMOVE EUCALYPTUS TREES.

COVINA, Jan. 31.—What is perhaps the largest contract of the kind ever let in Southern California has just been made by the foothill ranch just east of Anaheim for the removal of the large eucalyptus trees that border the various sections of the ranch.

The foothill ranch contains 1000 acres of orange and lemon trees under one ownership. The eucalyptus trees shade the citrus trees so that it is impossible for the sun to reach some of the fruit at any time of day, so it was decided to have them displaced.

There are about 1500 of the trees, some of which are five feet through. Men who are skilled in woodcraft have estimated that the trees will make at least 6000 cords of wood.

ANAHEIM MAN HEARS PARENTS ARE ALIVE.

ANAHEIM, Jan. 31.—Through a letter received yesterday, from an American soldier, Y. A. Youngblood, a merchant of this city, has heard from his aged parents in Germany. The first time in over three years. The soldier spent several nights at the home of Youngblood's parents at Colton.

The soldier said in his letter that the parents had played with weeping over him to write to their son in America that they are alive. To prove that the letter was genuine, the old man signed his name.

GENERAL BREAKDOWN FOLLOWED OPERATION FOR REMOVAL OF EYE.

NEW YORK, Jan. 31.—Nat Goodwin, the actor, died at a hotel here early today after a brief illness. He came to New York last Monday from Baltimore, where he had been playing. Death was due to a general breakdown in health, following an operation for the removal of his right eye several months ago.

Goodwin's histrionic career dated back to his school days in an academy at Farmington, Me., where his ability at mimicry won him local renown. After brief appearances at the University of Maryland, he came to New York, where he studied dramatic art, he made his professional debut as a new boy in "Law in New York," at Boston, in 1874. The following year found him at the famous Tony Pastor's in New York, and from there until his death his theatrical activities were marked with almost uninterrupted success, both as star and as producer.

Goodwin was five times married. His first wife was Elma Weatherly, a comedy actress, who died in 1887. A few years later he married Nellie Baker Pease, in 1894. Maxine Elliott, with whom he appeared in a large repertoire of plays; subsequently Miss Edna Goodrich (Bessie Edna Stephens) who was his leading woman for several years, and his most recent wife was Margaret Moreland, now the wife of an army lieutenant. Goodwin's country home was at Ocean Park, Santa Monica, Cal.

Goodwin was soon to have taken a sixth wife, Georgia Gardner of Los Angeles, Cal., who is playing in the company in which Goodwin was starring at the time of his death. She came to New York a few days ago to arrange for his care.

The removal of Goodwin's eye was the result of an error as an employee made several weeks ago in preparing an eye wash for the actor. Instead of the use of the usual liquid, was placed in the cup and Goodwin's eye was seriously injured. At the hotel here today it was stated that the actor suffered a slight stroke of apoplexy just before he was taken to the hospital.

CANNING COMPANY IN HANDS OF RECEIVERS.

OXNARD, Jan. 31.—The McCroskey Packing Company here, now in the hands of three receivers through voluntary assignments of the company, is being sold by the First National Bank of Oxnard.

It is said the local bills amount to between \$25,000 and \$27,000. The concern owes tomato growers about \$15,000. It is stated that the assets are more than three times enough to cover all liabilities.

GENERAL BREAKDOWN FOLLOWED OPERATION FOR REMOVAL OF EYE.

(BY A. P. MONT WIRE.)
NEW YORK, Jan. 31.—Nat Goodwin, the actor, died at a hotel here early today after a brief illness. He came to New York last Monday from Baltimore, where he had been playing. Death was due to a general breakdown in health, following an operation for the removal of his right eye several months ago.

Goodwin's histrionic career dated back to his school days in an academy at Farmington, Me., where his ability at mimicry won him local renown. After brief appearances at the University of Maryland, he came to New York, where he studied dramatic art, he made his professional debut as a new boy in "Law in New York," at Boston, in 1874. The following year found him at the famous Tony Pastor's in New York, and from there until his death his theatrical activities were marked with almost uninterrupted success, both as star and as producer.

Goodwin was five times married. His first wife was Elma Weatherly, a comedy actress, who died in 1887. A few years later he married Nellie Baker Pease, in 1894. Maxine Elliott, with whom he appeared in a large repertoire of plays; subsequently Miss Edna Goodrich (Bessie Edna Stephens) who was his leading woman for several years, and his most recent wife was Margaret Moreland, now the wife of an army lieutenant. Goodwin's country home was at Ocean Park, Santa Monica, Cal.

Goodwin was soon to have taken a sixth wife, Georgia Gardner of Los Angeles, Cal., who is playing in the company in which Goodwin was starring at the time of his death. She came to New York a few days ago to arrange for his care.

The removal of Goodwin's eye was the result of an error as an employee made several weeks ago in preparing an eye wash for the actor. Instead of the use of the usual liquid, was placed in the cup and Goodwin's eye was seriously injured. At the hotel here today it was stated that the actor suffered a slight stroke of apoplexy just before he was taken to the hospital.

Goodwin's parents live in Roxbury, Mass., where burial will take place.

REDLANDS PAPERS MERGE.

REDLANDS, (Cal.) Jan. 31.—Announcement was made here today that the Redlands Facts, an afternoon paper, and the Review, a morning paper, had been consolidated, effective immediately, by the purchase of the Review by the Facts Company, which will continue in the afternoon field under its original name. State Senator Lyman M. King will continue as editor of the Facts and Paul W. Moore will remain as manager. F. K. Arthur, who has been editor and manager of the Review, will join the Facts staff as city editor.

THE ECONOMY

BAKING POWDER

CALUMET

Calumet possesses the farthest-reaching baking powder economy. It is the most economical leavening agent. It saves in more ways—and makes more important savings than most other baking powders.

You save when you buy it. The price is moderate—it leaves you money over the cost of high-priced brands for purchase of other articles. Costs but little more than cheap powders—far more valuable in quality.

You save when you use it. Possesses twice the ordinary raising force—you use only half as much as is ordinarily required.

You save materials it is used with. Calumet never fails with any kind of recipe or with any kind of flour—always produces perfectly raised, delicious bakings.

You'll notice a great difference when you use Calumet. Calumet produces light, sweet, wholesome, flaky bakings. You will notice with some of the cheaper brands the bakings are soggy, heavy, dark in color, and sometimes have a bitter taste.

Used by leading chefs and domestic scientists, and by more housewives than any other brand. Made in the world's largest and finest baking powder plant.

Best by test. A trial proves it.

Don't trifle with a cold—it's dangerous.

You can't afford to risk Influenza.

Keep always at hand a box of

CASCARA QUININE

Standard cold remedy for 30 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine box has a Red top with Mr. Hill's picture. At All Drug Stores

Nat Goodwin was a familiar figure in Los Angeles; not only as an actor, but socially, having made his home here from Massachusetts, to attend the funeral, which will be followed by other services in Roxbury when the body reaches that place.

No Dissatisfaction Pickers, Growers Re

The Bolshevik I.W.W., for its secret effort to force automobile-picking industry in Gabriel and San Fernando came into the open yesterday with announcements of a strike meeting to be held in Los Angeles at 2 o'clock. The meeting is to be held under the auspices of the Industrial Union of the World. This is the first public appearance of I.W.W. in Los Angeles for some time.

On account of the rain, the strike picketing in the groves yesterday was curtailed. The I.W.W. agitators, working in automobiles, motorcycles, trucks, and vans, were San Gabriel and parts of San Fernando, distributing literature, and making speeches. The offices of the Los Angeles branch of the I.W.W. are located in English, Spanish and Chinese.

The notices are of the W.W. inflammatory type, black type that "strikers are killed," and saying that the

being held "for the best strikers in the orange industry," and he is expected to leave to The Times and to the Florida Orange Growers' Association there is no strike anywhere. As told in The Times, a young Russian man and his wife went into the orchards last night, timed for the second of February. The growers appointed a committee of 100 men and 100 leaders for looting in the orchards, whereupon the aged, and they were on strike for 10 days. The men and women have since been placed as regular pickers, who have been paid 10 cents an hour. It is said to try to intimidate the men and the Mexicans by giving them away from the orchards after firing a revolver.

M. Sastre, one of seven men trying to frighten away the pickers, was charged with sedition, is to appear for a morning before Justice and is expected to be following his conviction by

Thursday evening. The remaining defendants is next Friday.

NEW YORK STOCK MARKET.

NEW YORK, Jan. 31.—Eliminating United States Steel, which assumed its accustomed leadership over half of today's nominal dealings in stocks consisted of the more speculative issues, rails and other standard shares remaining in the background.

There was a moderate inquiry from the short interest at the outset, imparting a firm tone, but immediately this demand was satisfied.

Prices reacted save for occasional advances in motor, sugars, tobacco, oil and distilling stocks.

Some of the better known foreign fluctuations were featured by Paris 6 1/2 at an advance of one-half per cent.

Minor rails were under pressure and Texas and Pacific, yielded to profit taking.

Oils and shippings traversed their course of the past few days, the former losing further ground on rumors of more acute differences in the Mexican situation and the latter

showing fresh unsettlement on the heavy cut in ocean freight rates.

The movement in motor, which derived much of its strength from reports of Studebaker's expansion plans, also encompassed Chandler, General Motors and the several Maxwell issues at gross gains of 1 to 2 1/2 points, but these suffered general impairment in the final hour, when United States Steel and rails registered lowest prices of the day.

Sales amounted to \$10,000 shares.

Fluctuations of the new plan of the holders of railroad securities served to stiffen that class of bonds, the Liberty group also showing more steadiness, while foreign fluctuations were featured by Paris 6 1/2 at an advance of one-half per cent.

Total sales (par value) were \$11,575,000. United States bonds were unchanged on call.

The final prices on Liberty Bonds today were 3 1/2, 4 1/2, 5 1/2, 6 1/2, 7 1/2, 8 1/2, 9 1/2, 10 1/2, 11 1/2, 12 1/2, 13 1/2, 14 1/2, 15 1/2, 16 1/2, 17 1/2, 18 1/2, 19 1/2, 20 1/2, 21 1/2, 22 1/2, 23 1/2, 24 1/2, 25 1/2, 26 1/2, 27 1/2, 28 1/2, 29 1/2, 30 1/2, 31 1/2, 32 1/2, 33 1/2, 34 1/2, 35 1/2, 36 1/2, 37 1/2, 38 1/2, 39 1/2, 40 1/2, 41 1/2, 42 1/2, 43 1/2, 44 1/2, 45 1/2, 46 1/2, 47 1/2, 48 1/2, 49 1/2, 50 1/2, 51 1/2, 52 1/2, 53 1/2, 54 1/2, 55 1/2, 56 1/2, 57 1/2, 58 1/2, 59 1/2, 60 1/2, 61 1/2, 62 1/2, 63 1/2, 64 1/2, 65 1/2, 66 1/2, 67 1/2, 68 1/2, 69 1/2, 70 1/2, 71 1/2, 72 1/2, 73 1/2, 74 1/2, 75 1/2, 76 1/2, 77 1/2, 78 1/2, 79 1/2, 80 1/2, 81 1/2, 82 1/2, 83 1/2, 84 1/2, 85 1/2, 86 1/2, 87 1/2, 88 1/2, 89 1/2, 90 1/2, 91 1/2, 92 1/2, 93 1/2, 94 1/2, 95 1/2, 96 1/2, 97 1/2, 98 1/2, 99 1/2, 100 1/2, 101 1/2, 102 1/2, 103 1/2, 104 1/2, 105 1/2, 106 1/2, 107 1/2, 108 1/2, 109 1/2, 110 1/2, 111 1/2, 112 1/2, 113 1/2, 114 1/2, 115 1/2, 116 1/2, 117 1/2, 118 1/2, 119 1/2, 120 1/2, 121 1/2, 122 1/2, 123 1/2, 124 1/2, 125 1/2, 126 1/2, 127 1/2, 128 1/2, 129 1/2, 130 1/2, 131 1/2, 132 1/2, 133 1/2, 134 1/2, 135 1/2, 136 1/2, 137 1/2, 138 1/2, 139 1/2, 140 1/2, 141 1/2, 142 1/2, 143 1/2, 144 1/2, 145 1/2, 146 1/2, 147 1/2, 148 1/2, 149 1/2, 150 1/2, 151 1/2, 152 1/2, 153 1/2, 154 1/2, 155 1/2, 156 1/2, 157 1/2, 158 1/2, 159 1/2, 160 1/2, 161 1/2, 162 1/2, 163 1/2, 164 1/2, 165 1/2, 166 1/2, 167 1/2, 168 1/2, 169 1/2, 170 1/2, 171 1/2, 172 1/2, 173 1/2, 174 1/2, 175 1/2, 176 1/2, 177 1/2, 178 1/2, 179 1/2, 180 1/2, 181 1/2, 182 1/2, 183 1/2, 184 1/2, 185 1/2, 186 1/2, 187 1/2, 188 1/2, 189 1/2, 190 1/2, 191 1/2, 192 1/2, 193 1/2, 194 1/2, 195 1/2, 196 1/2, 197 1/2, 198 1/2, 199 1/2, 200 1/2, 201 1/2, 202 1/2, 203 1/2, 204 1/2, 205 1/2, 206 1/2, 207 1/2, 208 1/2, 209 1/2, 210 1/2, 211 1/2, 212 1/2, 213 1/2, 214 1/2, 215 1/2, 216 1/2, 217 1/2, 218 1/2, 219 1/2, 220 1/2, 221 1/2, 222 1/2, 223 1/2, 224 1/2, 225 1/2, 226 1/2, 227 1/2, 228 1/2, 229 1/2, 230 1/2, 231 1/2, 232 1/2, 233 1/2, 234 1/2, 235 1/2, 236 1/2, 237 1/2, 238 1/2, 239 1/2, 240 1/2, 241 1/2, 242 1/2, 243 1/2, 244 1/2, 245 1/2, 246 1/2, 247 1/2, 248 1/2, 249 1/2, 250 1/2, 251 1/2, 252 1/2, 253 1/2, 254 1/2, 255 1/2, 256 1/2, 257 1/2, 258 1/2, 259 1/2, 260 1/2, 261 1/2, 262 1/2, 263 1/2, 264 1/2, 265 1/2, 266 1/2, 267 1/2, 268 1/2, 269 1/2, 270 1/2, 271 1/2, 272 1/2, 273 1/2, 274 1/2, 275 1/2, 276 1/2, 277 1/2, 278 1/2, 279 1/2, 280 1/2, 281 1/2, 282 1/2, 283 1/2, 284 1/2, 285 1/2, 286 1/2, 287 1/2, 288 1/2, 289 1/2, 290 1/2, 291 1/2, 292 1/2, 293 1/2, 294 1/2, 295 1/2, 296 1/2, 297 1/2, 298 1/2, 299 1/2, 300 1/2, 301 1/2, 302 1/2, 303 1/2, 304 1/2, 305 1/2, 306 1/2, 307 1/2, 308 1/2, 309 1/2, 310 1/2, 311 1/2, 312 1/2, 313 1/2, 314 1/2, 315 1/2, 316 1/2, 317 1/2, 318 1/2, 319 1/2, 320 1/2, 321 1/2, 322 1/2, 323 1/2, 324 1/2, 325 1/2, 326 1/2, 327 1/2, 328 1/2, 329 1/2, 330 1/2, 331 1/2, 332 1/2, 333 1/2, 334 1/2, 335 1/2, 336 1/2, 337 1/2, 338 1/2, 339 1/2, 340 1/2, 341 1/2, 342 1/2, 343 1/2, 344 1/2, 345 1/2, 346 1/2, 347 1/2, 348 1/2, 349 1/2, 350 1/2, 351 1/2, 352 1/2, 353 1/2, 354 1/2, 355 1/2, 356 1/2, 357 1/2, 358 1/2, 359 1/2, 360 1/2, 361 1/2, 362 1/2, 363 1/2, 364 1/2, 365 1/2, 366 1/2, 367 1/2, 368 1/2, 369 1/2, 370 1/2, 371 1/2, 372 1/2, 373 1/2, 374 1/2, 375 1/2, 376 1/2, 377 1/2, 378 1/2, 379 1/2, 380 1/2, 381 1/2, 382 1/2, 383 1/2, 384 1/2, 385 1/2, 386 1/2, 387 1/2, 388 1/2, 389 1/2, 390 1/2, 391 1/2, 392 1/2, 393 1/2, 394 1/2, 395 1/2, 396 1/2, 397 1/2, 398 1/2, 399 1/2, 400 1/2, 401 1/2, 402 1/2, 403 1/2, 404 1/2, 405 1/2, 406 1/2, 407 1/2, 408 1/2, 409 1/2, 410 1/2, 411 1/2, 412 1/2, 413 1/2, 414 1/2, 415 1/2, 416 1/2, 417 1/2, 418 1/2, 419 1/2, 420 1/2, 421 1/2, 422 1/2, 423 1/2, 424 1/2, 425 1/2, 426 1/2, 427 1/2, 428 1/2, 429 1/2, 430 1/2, 431 1/2, 432 1/2, 433 1/2, 434 1/2, 435 1/2, 436 1/2, 437 1/2, 438 1/2, 439 1/2, 440 1/2, 441 1/2, 442 1/2, 443 1/2, 444 1/2, 445 1/2, 446 1/2, 447 1/2, 448 1/2, 449 1/2, 450 1/2, 451 1/2, 452 1/2, 453 1/2, 454 1/2, 455 1/2, 456 1/2, 457 1/2, 458 1/2, 459 1/2, 460 1/2, 461 1/2, 462 1/2, 463 1/2, 464 1/2, 465 1/2, 466 1/2, 467 1/2, 468 1/2, 469 1/2, 470 1/2, 471 1/2, 472 1/2, 473 1/2, 474 1/2, 475 1/2, 476 1/2, 477 1/2, 478 1/2, 479 1/2, 480 1/2, 481 1/2, 482 1/2, 483 1/2, 484 1/2, 485 1/2, 486 1/2, 487 1/2, 488 1/2, 489 1/2, 490 1/2, 491 1/2, 492 1/2, 493 1/2, 494 1/2, 495 1/2, 496 1/2, 497 1/2, 498 1/2, 499 1/2, 500 1/2, 501 1/2, 502 1/2, 503 1/2, 504 1/2, 505 1/2, 506 1/2, 507 1/2, 508 1/2, 509 1/2, 510 1/2, 511 1/2,
